## Indians Win After Tie Game

Yankees, Braves Deadlock, 12-12 In LL Contest

It was the Indians 17, White Sox 10 and the Yankees-Braves in a 12-12 tie Monday night in two Little League contests at Yoe Field. The Yank-Braves tie was called in the eighth inning with the Yankees getting eight hits and 12 and the Braves 17 for 12 runs.

B. Jones sent 11 Yankees down by the strike-out route while J. Parker got six during the evening on third strikes.

The game was marked by doubles and singles, but no batter hit one for more than two bases. Top hitter for the Braves was R. Moraw and B. Jones each with four for five, including doubles and J. Smith with three for five.

In the Sox-Indian tussle, the Indians garnered seven for 17 runs. Big item on the Indian scoring agenda was a number of walks given up by Sox Twirler M. Provasek.

The Indians exploded with 10 runs in the four-inning game called because of the long game between the Yanks and Braves earlier.

Little League Standings	W	L	T
Braves	5	1	1
Indians	5	2	0
Yankees	2	4	1
White Sox	1	6	0

The Little League Braves edged the Indians 7-6 Friday night while the Yankees went out over the White Sox 16-10 in a hitting contest.

A big fifth inning turned the tide for the Braves as they scored five on two hits including a triple by J. Smith. They added the winning run in the seventh on a homerun also by Smith. The round-tripper broke up the ballgame.

The Indians got five hits while the winning Braves garnered six. In the Yankee-White Sox tangle, the Yanks 10-hit the Sox while the hose picked up seven at the plate.

Big blow of the game was a fourth-inning triple by E. Vogel-sang for the Sox. They bunched four hits in both the fourth and fifth, but could not match two five-run innings by the Yanks in the second and fourth frames.

Fourth-inning hitting news was made by J. Woodum with a triple followed by J. Parker's homerun. The four-hit frame punched across five runs for the winning Yankees.

### Seating Needed

There have been some grand turnouts for the Little League and Pony League—proud mothers and dads who want to watch junior play his best in a fine athletic program.

But there is a real need for extra seating to hold the people who attend the games.

When the program first began earlier this month, league officials and recreation program directors were discussing means to provide the necessary seating.

The program, officials say, could use about 200 seats or equivalent benches for the parents and other onlookers. We hope they can be provided so the program will continue to grow as a spectator sport for the whole town.

Those kids are enjoying a fine program that needs adult support. Adults are supporting them well thus far, but some seating would assure that parents and friends would continue to attend the games.

## THE LITTLE RIVER PHILOSOPHER

Sage Wants New-Type Loan  
On Grounds He's Weak Too

By J. A.

(Ed: The Little River Philosopher must figure he's going to have something to sell this fall, his letter this week indicates.)

Dear editor:  
I was out here on my farm yesterday afternoon watching things grow by leaps and bounds, you know, one of the advantages of farming is that a crop will grow even while you're sleeping, which is the ideal way to make money, although you have to remember the price can drop while you're sleeping too, and it's nothing to wake up some morning and see your crop an inch taller and things were growing pretty good I got to wondering what prices will be like this fall.

Consequently, it was with considerable pleasure when I read in a newspaper I'd been carrying in my pocket for a couple of days where the United States Chamber of Commerce had collected a bunch of experts to advise on business trends for the rest of the year.

And according to the experts, and they had em from all fields, wages and prices are going to continue to climb, retail business is going to increase, construction will climb, and things will keep booming, in fact, 1957 may be our best year.

But what interested me most was the estimate on the farming situation made by an economist for the outfit, after a survey of the whole nation.

According to the article, he "expressed hopes that farm prices will rise along with other prices."

Well, it's a funny thing, I've

been hoping farm prices would rise every year all my life, but I've never considered myself an economist or any other kind of expert. However if the best an economist can do after a careful analysis of the agricultural situation is come up with the hope in the summer that prices will be higher in the fall, then I could hang out my shingle along with the best of them. I'm an economist too.

In fact, come to think of it, I suppose most farmers are automatically agricultural economists, as I've never run across one yet who wasn't hoping he'd get a little more for his stuff than he suspects he will or past history tells him he won't.

Experience is a fine thing, but if you haven't got the knack of forgetting some of it, you ain't cut out to be a farmer.

The price of nearly everything is going up, according to the experts, but about all they can offer the farmer is an increase in hopes, and most farmers already have plenty of that, or they would not be going up one row and down another.

Yours faithfully,  
J. A.

## Other Things Follow If God Sought First

By Rev. Walter Grimes, Pastor  
First Christian Church

The story is told of a minister who called to thank one of his business men for the large increase in his church giving, and during the course of conversation said: "It certainly is nice to know that you have had such a good year."

But the layman replied: "There hasn't been any increase in my business. In fact, this year has been worse than usual. But I just discovered that I wasn't giving to the church according to my scale of values. I found this out when I was making up my checks for the month. My Church has always meant more to me than my car—but my giving certainly did not reflect that fact. I could get along without my car, but not without my church!"

Now, we must admit that this is an unusual story, but the layman in it has discovered a very real,

significant truth. We are all inclined to give the Church of Jesus Christ first importance with our lips, but not by our actions.

Automobiles, entertainments, clubs and fraternal organizations, cosmetics, tobacco, material things in many instances have far exceeded the church as far as our own personal scale of values go, and the church has been left the remains.

This is not only true of our money, but is true of every area of life. Any minister will tell you that if everyone within a given community were to attend church services at a given time, there would not be room enough to crowd everyone in. Yet, many of our church sanctuaries are dotted with lone worshippers sitting in the midst of empty pews, during worship services. And we have let "more important things" keep us away.

Our sad-faced friend is Bill McGoo,

Who thought he'd bought a car brand-new.

And while he got a "special deal"

His disappointment he can't conceal!

While others drive in Swept-Wing style

Poor Bill just mutters curses vile:

"They got new styling, features, too—

"I bought a 'deal'—boo-hoo, boo-hoo!"

**Moral: Yesterday's looks and features are no bargain at any price!**

No car is a bargain if it's obsolete in styling and engineering features. And the Swept-Wing Dodge actually *obsoletes* other cars in its field with its low, low look of tomorrow and revolutionary advances like Torsion-Aire Ride, Push-Button TorqueFlite and Total-Contact Brakes. So don't get "bargain-talked" into yesterday's styling and features. The same money buys the car that's years ahead. See your Dodge dealer. Join the swing to the Swept-Wing Dodge.

## Talks On Water Awaits October Legislature

By Vern Sanford

Texas Press Association  
AUSTIN — Water legislation promises to be a lively topic at the special session of the legislature in October.

Gov. Price Daniel has announced he will urge creation of a state-wide water agency empowered to negotiate with federal authorities in financing reservoirs. That is likely to prove controversial in itself. Then there is likelihood of considerable discussion over the State Board of Water Engineers and its recent troubles. Fuses get lit that way.

Former State Sen. Joe Carter resigned as the Board's general counsel. Board dissolution erupted into public view at a meeting called by Chairman R. M. Dixon to demand Carter's resignation. Member Otha Dent, in support of Carter, avoided attending the meeting and no action was taken.

Dixon accused Carter of being "disloyal" and working against his confirmation in the Senate. But Dent indicated Carr wasn't the main reason for Board dissolution and his leaving doesn't mean Board harmony.

Carter remained non-committal.

**INSURANCE BOARD CHANGES**  
New Insurance Board Chairman Penn Jackson took over duties earlier than planned last week after a snarl developed in the new reorganization law. Atty. Gen. Will Wilson ruled that the Board cannot legally function without employing a newly-authorized commissioner. But there is no money to pay him until Sept. 1.

Gov. Daniel decided to accept resignations of the outgoing Board members immediately. Jackson took office. Hold-over appointee Joe Gibbs remained.

Third member, Dave Irons, will join shortly. Together they will try to untangle the knot and launch a new era in insurance regulation.

### A Tribute . . . .

### To Our Newsboys!

The eager-faced lad who stands on the corner in all kinds of weather selling newspapers is, in every sense of the word, an American businessman. He is a self starter. He is up bright and early and on the job late at night. Nobody backs him with capital or confidence. He supplies all of this himself — and banks solely on his own alertness and salesmanship. Your newsboy may deliver your newspaper to your door. If so, he is even a more astute businessman, for he not only throws his papers at countless front porches, but doubles back regularly to make collections. Yes, the newsboy is an American institution. Keep up the good work, youngster. We're all behind you!

WE SALUTE OUR TOWN!

### Scout Executive Tells Kiwanians Leadership Role

Cameron Kiwanians Thursday heard Harvey Price, scout executive with the Heart O' Texas Council, describe the benefits for boys who work in Scouting.

Introduced by Jim Fridstein, Price congratulated the Cameron club on recently assuming the sponsorship of Troop 83.

He told Kiwanians that Scouting gives kids the feeling of belonging, an enjoyable camping experience and a code of living.

Kiwanis clubs in Texas, he pointed out, are sponsoring 192 Scout units, accounting for 57 percent of the Kiwanis groups in the state.

He emphasized that Scouting presents three major obstacles for the sponsoring organization: They are leadership, meeting place and a program authorized by the Boy Scout Council in the area.

But, he said, he hoped that the Cameron Kiwanians would be enthusiastic leaders in Scouting. He said they would experience a strong feeling of satisfaction in working with Scout-age boys.

Scouting provides boys a good experience of associating with men.

Cameron, Texas  
June 27, 1957

Dear Friends,

It is with a sense of sincere humility that I extend my warmest thanks for the many courtesies shown me in the years I and my family have been in Cameron.

I am moving to Bryan July 1, but I leave Cameron somewhat regretfully. Cameron residents and all Milam Countians have made my residence here a most enjoyable and pleasant one.

The warm appreciation and cooperation of people throughout Cameron and the county have made possible what little I may have contributed to this community. It is that spirit of cooperation and friendliness that has made Cameron a community I will always consider home.

I will always appreciate the honors and privileges bestowed upon me by Cameron and its Chamber of Commerce. I cannot but believe that someone else may have worn them a bit better than I have. But for that recognition I am most grateful.

Whenever people work together as willingly as Cameronsites have, they cannot help but improve upon an already grand community. They aroused in me when I first moved here a spirit of community pride which is even stronger today.

I take that pride in Cameron with me. It will always give me enthusiasm for whatever goal I hope to achieve. Cameron has given me much more than I ever hoped to give her.

Sincerely,  
BEN MAGNESS

## New Cotton Deadline Set For July 1 As Seasonal Variations Alter Plan

By J. D. Moore

Due to continued overflows occurring in the bottomlands, cotton planting dates have been extended until July 1, according to John C. White, State Commissioner of Agriculture. Farmers may plant cotton as late as June 30, and still comply with the Pink bollworm regulation.

Better cotton farmers agree that any date past the middle of June is too late for cotton planting if a crop is expected. However seasonal variations such as ample moisture conditions, could contradict this opinion.

No one wants to see the farmers miss a crop on the bottom lands. We suggest that farmers who plant late, check on the possibilities of the cotton insurance program. This program is hand-

led at the Cameron Merchants Association. The address is 212 South Houston, here in Cameron.

### COTTON GENERAL INFORMATION

Some general information on growth and fruiting habits of cotton plants in central Texas. (based on April 15, planting date.)

1. Time to come up - average 7 to 10 days.
2. Emergence to square 35 to 40 days.
3. Bloom to open boll 50 to 65 days.
4. Boll full grown 20 to 25 days after bloom.
5. Cotton should be ready to harvest in 160 days. (25 percent is open in 130 days).
6. Most effective fruiting period is from June 2 to August 1.
7. Approximately 35 to 40 percent of blooms make bolls.
8. August 20 is generally the last date for effective setting of fruit in a normal year.

The first white blooms were reported this week in cotton planted the first half of April. With the exception of late cotton on the bottomland, our cotton prospects are good. Farmers are urged to continue inspecting their cotton every 3 or 4 days for flea hoppers and early boll weevils. Apply poison if insects are present.

## Cotton Deadline Reset For July 1 By State

A third extension was granted last week for cotton planting in Milam County and 43 other counties in Central Texas.

The new deadline set by Agriculture Commissioner White is July 1.

The original deadline change was to June 10 which was later moved up to June 20 due to continued rains in Central Texas.

White said the extension was made because many lowland fields were too wet to be planted by June 20.

## SAVING YOUR SOIL

## YOUR SOIL

### By Your Soil Conservationist

Now is the time to decide whether the farm pasture will be weeds or grass, says Adrian I. Moore, soil conservationist serving the Little River-San Gabriel SCS. It is also the time to get after those weeds if the above decision is to have a grass pasture.

With the supply of moisture in the soil profile that we have and with a little additional rainfall, farm pastures in the east half of the district are in a position to stage an all out comeback towards a cover of grass.

For the desired grasses to do this, though, weed control is a necessity.

### 3 Weed Control Steps

Three mighty good approaches to the weed control problem are: First, practice proper use or controlled grazing. Do not overgraze. This will let your grasses carry out a very aggressive competition for moisture, nutrients and sunlight. Second, mowing and third, chemical control with sprays. Controlled grazing and mowing are probably our best ways to control weeds, due to state laws on the handling and application of chemical sprays. Mowing should be done early

most years. May and June being the months for first mowings. Later mowings are frequently needed in August and September. Where mowing is delayed until mid-summer, Moore observes, you have generally already had it.

Much of the growth potential on your grass has been lost. You will be better off, when the weed crop is heavy, to mow in mid-summer though than to not mow at all.

### Supplements Cut Overuse

Overuse or overgrazing of the pasture can be eliminated through supplemental planted pasture acreages. Even usage of the pasture may also be obtained through rotation grazing of permanent pastures by means of cross-fences or separated pastures.

Quite a few years now there has been a reduced need for a weed control program on pastures of the area, he states. Some years it has been so dry and overuse so severe that the weeds were quite a blessing in disguise for cover and litter purposes. This year weed control is a must.

## The Big Job is under way

Santa Fe is now loading thousands of cars of grain and grain products on its lines

Santa Fe has been serving agriculture since 1874, when we sponsored the migration of the Mennonite farmers who established the Kansas wheat belt, and brought with them from Europe the ancestors of the better varieties of wheat grown in America today.

During harvest time, Santa Fe has a big job to do.

At the country stations and terminal elevators along the line, as agriculture's "hired man," Santa Fe loads over 121,000 boxcars of grain a year—the total production of over 9,000,000 fertile acres. We also load over 34,000 cars of grain products on our line annually.

An important part of this job is done in advance by our own agriculture department, by collecting data on planted acreage, weather, crop damage and other factors that affect yield.

These statistics provide useful information for farmers, elevator operators and others interested in grain movements, and assist us in spotting grain-tight boxcars at strategic points at harvest time.

Our agriculture department works with the Federal and State agriculture departments, land grant colleges, and county agents in fighting destructive insects and plant diseases.

We are also privileged to award university scholarships annually to many farm youths in our territory.

We of the Santa Fe are proud of the part we have in serving the farmers of the West and Southwest in their essential task of feeding the Nation.

## TELEPHONE TALK

by C. L. Carson, Manager

### SHE'LL GET YOUR NUMBER

Is your personal list of out-of-town telephone numbers complete and up-to-date?

If it isn't, we'll be glad to get any new numbers you need — free of charge, too. Just call Long Distance and ask the operator for the numbers you want.

As always, you'll find Long Distance service is much faster and more convenient when you keep a list and call by number.

Long Distance is a real bargain, too. You can call from Cameron to Houston for only 65c plus tax (station-to-station, after 6 p.m. and all day Sunday).

### I LIKE MY PHONE BECAUSE...

If you were asked to name the one "main" reason why you like having a telephone, what would it be?

Time-saver, maybe? Housewives, especially, get so much more done during the day by using their telephone as an errand boy.

Business aid? The phone is an essential tool for most business and professional people.

Companion? Folks who have to stay close to home because of illness or family responsibilities find the telephone a reliable friend. Frequently, it's their number one means of keeping up with friends they don't often get to see.

Others find it reassuring just to have a telephone close by, knowing they can use it to call for help in an emergency.

But most of us, I imagine, like having a telephone simply because it's an easy, pleasant way to visit the people we enjoy and want to talk to.

Telephone service means a lot of different things to a lot of different people. For whatever reasons you like having a phone, you can be sure we're always searching for new and better ways to make it even more useful, convenient, and economical.

### NOT OUT TILL YOU COUNT TEN

Remember this old saying? "Don't lose your temper. Count to 10." Still pretty good advice, I guess.

And 10 can be a magic number for saving your telephone temper, too.

When you make a call and don't get a quick answer, a good rule of thumb is to wait at least 10 rings before you assume no one's there.

Especially during the summer — when people are out in the yard so often — it's a good idea to allow them some extra time to reach the phone.

Call by number. It's twice as fast.

## Cats Win, 13-2 Over IOOF Colts

The Rotary Cats ran up a 13-2 victory Thursday over the IOOF Colts in the Cameron Pony League while the Colts took a 13-3 loss at the hands of the Rosebud Pony Leaguers June 18.

In the Thursday game, the Colts scored twice in the third

inning, then bumped into stiff defensive play and Cat pitching.

A big fourth inning gave the Cats a strong lead when they scored six runs. Five runs in the fifth inning iced the games for the Rotary-sponsored club.

## Exes Beat Milano

### Before Rain, 5-3

The Cameron Exes took a 5-3 win over Milano Sunday before rain stopped the game after the fifth inning.

Eddie Gerren was the winning pitcher while Loewe absorbed the loss for Milano. Catchers were Menard for the Exes and Davidson for Milano.

Best hitting was chalked up by Tommy Kirk with 2 for 2 and Buck Wilkinson with 2 for 3 in the Exes batting roster.

Exes - 7 hits - 5 runs - 3 errors. Milano - 4 hits - 3 runs - 2 errors.

## Marlin Drops Cards

### Before Rains, 3-0

The Marlin Pirates and the rain Sunday halted the Cameron Cardinal winning streak after the fifth inning, 3-0.

All three Pirate markers were scored in the first inning.

Two walks, two overthrows and an error sent the three Pirate scores across the plate.

After the first inning the game became a defensive battle until Cardinal Tony Mendoza slashed a long triple. But rain forced the game to be called.

Cameron will go to Waco Sunday to play the Waco Missions at 3 p.m. at Katy Park.
